

MUHAMMED IRFAN UV

Full-Stack Developer (React.js & Python Specialist)

irfan188iqbal@gmail.com | +971551345244 | Location: Dubai, UAE

Visa Status: Visit Visa (Available to join immediately) | Nationality: Indian

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience architecting scalable **ERP, e-commerce, and real-estate** platforms using **Python (Django), React, Node.js, and AWS**. Proven track record of delivering enterprise-grade applications with complex third-party integrations (**Agora, Razorpay, Msg91**) for consultancy firms. Seeking to leverage architectural expertise in a challenging frontend or full-stack role in the UAE.

WORK EXPERIENCE

Front-End Team Lead | ibadvisory (Remote, UAE/India) | Nov 2025 – Present

- **Architected** a real-time "Virtual Yoga Studio" using **Agora Video SDK**, achieving HD streaming for 500+ concurrent users with <400ms latency.
- **Streamlined** fintech pipelines by integrating **Razorpay Subscription API**, automating recurring billing and implementing robust webhook listeners for real-time payment failure handling.
- **Optimized** user security protocols by deploying **Msg91 multi-factor authentication**, achieving a 99% delivery success rate via "Invisible OTP" fallbacks.

Full Stack Developer | **Finisso Technologies** | Kerala, India | Sept 2024 – Nov 2025

- Engineered **ERP modules** (HRM, Accounts, Inventory) using Angular + Django + PostgreSQL.
- **Automated** GST compliance workflows and established Role-Based Access Control (RBAC) to ensure data integrity and regional regulatory alignment.
- Built real-time **financial dashboards** improving reporting speed by 30%
- Collaborated with **UAE, Oman, and Bahrain** clients on system design and delivery.

HANDS ON EXPERIENCE - PROJECTS

SevenSky Real Estate Platform | Developed an end-to-end real estate marketplace supporting 1,000+ concurrent sessions with a MERN stack architecture.

- **Integrated** Google Maps API for geospatial property searches and **Socket.io** for real-time agent-client messaging.

Zuus E-Commerce Platform | **Node.js** | **AWS** * Implemented a custom administrative dashboard for inventory and coupon lifecycle management.

- **Secured** checkout workflows using JWT-based session handling and encrypted payment gateways.

Cafe Oregano Digital Menu | Freelance Project

- Designed a **React-based digital menu system** improving order efficiency by 40%.
- **Leveraged** React Context API to optimize state management, resulting in a **35% reduction in page load times** and achieving **100% cross-device responsiveness**.

SKILLS

- **Frontend:** React, Angular, TypeScript, Redux, Tailwind, Bootstrap, Material UI
- **Backend:** Django, Node.js, Express.js, PostgreSQL, MongoDB, REST API, GraphQL
- **Integrations:** Stripe, Razorpay, Cloudinary, Socket.IO, JWT, OAuth2
- **Cloud & DevOps:** AWS EC2, Docker, NGINX, GitHub Actions, Route 53, Kubernetes
- **Tools:** Figma, Postman, VS Code, Linux
- **CS Foundations:** Data Structures, Algorithms (LeetCode 200+ Problems Solved)

EDUCATION & CERTIFICATIONS

- BCom (Computer Applications) – Kannur University, India | 2022
- MERN Stack Development Bootcamp – Brototype, Calicut | 2023

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Malayalam (Native)
